Granito™ Series

#270 Series Resin Table Tops

Square 1-1/4" Eased Flat Edge

Round 1-1/4" Eased Flat Edge

Constructed with a blend of polyester and acrylic resins, Granito table tops also feature a plywood core for sturdy base attachment and a honeycomb layer for structural integrity. The underside of the top is sealed with a resin layer for a finished appearance.

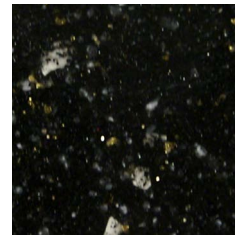

Granito Series table tops are designed with a 1-1/4" eased flat edge. The flat vertical edge allows the tables to be butted against one another while the eased edge and corners eliminate sharp edges and help prevent wear.

Granito table tops have been independently tested to stand up to surface abrasion at least 5 times more effectively than laminate surfaces.

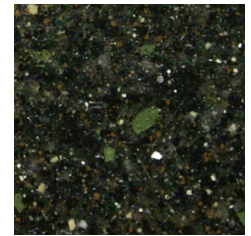

Introducing the Granito™ Series of table tops from MTS, with the look of granite, and the consistency of color that is unmatched and offered in our most popular shapes and sizes.
