

12/6 IMPILATO STACKER

INTRODUCING THE IMPILATO

Impressive. That's the first word that comes to mind when you see the Impilato from MTS. Imagined by the visionaries at Tolleson Saul Design, this chair has a distinctive appearance that's easy on the eyes, while offering stacking performance that takes problems off your hands. It's an advantage that really makes an impact.

- Stacks 12 high in less than six feet of space
- COMFORTweb® seat standard
- Five standard upholstered, wood and metal back designs
- All models available in matching barstools
- Industry best 12-year structural warranty

All Impilato 12-Six stackers are available with matching barstools.

FEATURES

COMFORTweb® seat provides exceptional comfort for extended seating. A luxurious layer of COMFORTmode® foam supported by alternating flexible rubberized polypropylene stretchband material delivers responsive, reliable comfort.

Standard nylon swivel glides are designed for maximum holding power, with an exclusive, double-tiered springsteel clip attachment with eight fingers and a clear vinyl bumper/boot for better stacking and finish protection. Tested to exceed 300 lbs of pulling pressure.

The Impilato's innovative frame design provides compact leg-on-leg stacking, allowing the user to stack up to 12 chairs in less than six feet of space.

OPTIONS

With the ProBax® Option, users will experience more comfort through a reduction in pressure on the spine and muscle fatigue in the back. It's technology that translates into proven health benefits and more sustained alertness over time.

Custom Back shapes and designs are also available in laser-etched wood, cut-out wood or metal, or embroidered upholstery, depending on the back style. It's seating with signature style and it's only from MTS!

Retractable Linking Devices are constructed with a ganger that slides under the seat and out of sight when not in use. For better functionality, the ganger is held in place with a molded nylon retainer – just another advantage from MTS.

MTS Premium Metal-Based Glides feature nickel-plated, polished steel bases that enhance the ability of the chair to slide across carpet and hard surfaces. The glides also include protective rubber cushions to extend the life of the glides.

Sit Green.

It's not just a seat. It's a style.
