

Nano-Tex® is an exciting new textile protection that couples the latest high-performance textile nanotechnology with environmentally friendly components. This innovation can be applied to all of our textile line (excluding vinyls, faux leather and Crypton®). Nano-Tex® provides superior protection for your textiles.

FEATURES: BENEFITS:

SPILL/STAIN PREVENTION

- Fabric aggressively repels liquids and stains.
- Helps prevent staining of fabric from dirt and spills that occur in the hospitality industry.
- Very cleanable with water, detergents or solvents. (bleach can be used with solution-dyed fabrics)

PERFORMANCE

- Preserves beauty and maintains natural hand.
- Enhances abrasion resistance on almost all textiles.
- Highly breathable and comfortable.
- Permanent.

ENVIRONMENTALLY FRIENDLY

- Nano-Tex is recyclable.
- MBDC environmental certification.

APPLICATIONS

- For hospitality, foodservice, institutional, and healthcare applications.
- Engineered to work across a wide variety of textiles for broad choice.

Allows use of solids, lighter colors and delicate fabrics.

Refer to current MTS pricelist for pricing.
